THEIR COURAGE IS OUR

Inspiration.

Child Life Specialist Position

Our core program funds the Child Life Specialist position at Nemours Children's Specialty Care.

Through play, learning and self-expression, children learn to minimize the stress of treatment.

The advocate works with children and their families, helping them cope with the often frightening treatment for childhood cancer.

Financial Assistance

A diagnosis of childhood cancer often means financial hardship for the families. We help with expenses for housing, utility bills, food and other expenses that health insurance does not cover.

Support Services

We offer families the emotional and practical support they need to make it through this challenging experience. We also host an annual family retreat weekend.

Established in memory of a child of extraordinary courage and unconquered spirit, the Christy Fund is an endowment for the Child Life Specialist position.
